What Can I Do With a Major in Economics?

Economics graduates pursue careers in business, education, management, insurance, real estate, financial analysis, consulting, banking, sales, government and the non-profit sector, and some pursue advanced degrees. Future career options may be determined not so much by the choice of the Economics major, but by your interests, skills, values, and types of work experiences acquired during college.

Regardless of your career aspirations, increase your marketability to employers through internships, related work experience, good grades, advanced coursework, and involvement in campus activities.

What Are RUC Grads Doing With Their Economics Degree?

The following is a sample of first jobs of Rutgers-Camden Economics majors:

Universal Associate, The Vanguard Group

Credit Analyst, Cannon Financial

Veteran Service Rep., U.S. Government

Financial Analyst, Towers Perrin

Mortgage Counselor, Cendant Mortgage

Senior Underwriter, Indymac Bank FSB

Human Resources Coordinator, American Red Cross

Customer Service Rep., Merrill Lynch

While many Economics majors choose to go directly into the workplace after graduation, others will decide to pursue a graduate degree. Rutgers-Camden Economics majors have earned advanced degrees in many fields including:

Economics

Business

Law

Human Resources

Political Science

Education

Public Relations
